

DEAR GARDENING CLUB

RE: GROW YOUR OWN CURRY

Over the last couple of years British Curry Club has enjoyed a summer campaign to encourage the public to “grow your own curry” ingredients!

This year we would like primary schools to get involved in our “Grow Your Own Curry” campaign, along with help from our campaign partners, *Chaat! Magazine*, Sutton Seeds, East End Spices and Sweet Cherry Publishers.

There can be nothing better than encouraging young people to enjoy gardening, and being able to use these fresh ingredients to cook their very own curry, either in school or at home! Global foods topic is encouraged by the primary schools educational curriculum.

Your school may already have a gardening patch or have some spare pots ready to grow your seeds in!

For your school to get involved it is very simple, all you have to do is:

- Use as many of the Sutton Seeds we have included with this letter
- Put the poster up in your school to spread the message of the campaign
- If your school has a Website, Facebook or Twitter post **#Growyourowncurry**

Plus if you would like to get involved in our nationwide competition with the chance of being one of three schools to win **£200** and for one pupil to win **£25** worth of reading books provided by Sweet Cherry Publishing then register your involvement by returning the slip or email to **competition@britishcurryclub.co.uk** by the **31 May 2016**, then by the **1 July** send us letters from your pupils telling us about your schools vegetable path and how much they have enjoyed taking part in the schools gardening club.

Best wishes,

Rosena
